CUTTING-EDGE PATENTED BATTERY TECHNOLOGY

2880 Wh

Dual-battery Capacity

110km

Dual-battery NEDC Range

CORE FEATURES

- EV Class cells - Dual Lithium Iron Phosphate (LFP) Battery Packs
- More than 2,000 full charging/discharging cycles
- Aluminum alloy unibody casing
- Coaxial Sleeve Connector convenient for swapping
- Full charging within 3.5 hours
- First-ever Smart multi-battery management system with Optical Communication

ADVANCED TECHNOLOGIES

- Optimised fire resistant and flame retardant cell structure
- 95% of real-time remaining range estimation via patented technologies
- Separate CAN Bus and power source, dual power ignition, 20 sets of sensors and 8 protection features in a single battery
- Patented technology for dual-battery smart switching between series and parallel battery management

BATTERY SWAP STATION

We want to make life simpler and cleaner.
Swap & Go in less than 6 seconds!

REAL-TIME MONITOR
